THOMAS CONTRACTING & CIVIL PTY LTD

Experience. Reliability. Quality Workmanship.

About Us

Thomas Contracting & Civil Pty Ltd is a Victorian-based earthmoving and civil construction company delivering reliable, professional and high-quality services across Victoria and beyond.

Established in 2024, our company is built on over 20 years of hands-on industry experience, with extensive knowledge across civil construction, earthmoving, excavation and major infrastructure projects.

As an owner-operated business, we pride ourselves on providing a personalised, dependable service. Our director, Justin Thomas, is actively involved in the day-to-day operations, working on-site and operating machinery to ensure every project is completed to a high standard.

Our capabilities extend beyond machinery operation and earthworks to include project management and estimating, allowing us to assist clients with project planning, cost assessments and the coordination of works from initial planning through to completion.

We understand the importance of getting the job done right, safely, efficiently and on time.

Our Services

We offer a comprehensive range of earthmoving and civil construction services, including:

- Project Management
- Estimating and Cost Assessments
- Earthmoving and Excavation
- Civil Construction Works
- Roadworks and Road Construction
- Driveway Construction and Preparation
- Horse Arena Construction
- Building Pads and Site Preparation
- General Earthworks and Site Development

Whether it's a small residential project or a large-scale commercial or civil development, we bring the same level of commitment, professionalism and attention to detail.

Project Management & Estimating

At Thomas Contracting & Civil, we understand that successful projects require careful planning, accurate estimating and effective coordination.

We offer project management and estimating services to assist clients with planning, budgeting, resource allocation and the delivery of civil construction and earthmoving projects.

With extensive practical experience in the industry, we understand the challenges involved in delivering construction projects and the importance of managing costs, timelines and resources effectively.

Our hands-on approach allows us to provide practical solutions tailored to the requirements of each project.

Our Experience

With more than two decades of industry experience, Justin has worked across a diverse range of major construction and infrastructure projects, including:

- Wind Farm Construction Projects
- Major Road Construction and Infrastructure Works
- Earthworks associated with the BP Service Station development in Delacombe
- Earthworks associated with the McDonald's development in Delacombe

This extensive experience provides the knowledge and practical expertise required to manage a wide variety of earthmoving and civil construction projects.

Our Equipment and Capabilities

Thomas Contracting & Civil operates a range of machinery and equipment, including:

- Tandem Tipper Truck
- Water Cart
- Posi Track

We also have access to a comprehensive range of additional machinery and equipment through our established hire arrangements, allowing us to accommodate projects of varying sizes and requirements.

Why Choose Thomas Contracting & Civil?

Over 20 Years of Experience

Extensive hands-on knowledge across earthmoving, civil construction and major infrastructure projects.

Project Management & Estimating

Practical project planning, estimating and coordination capabilities to support efficient project delivery.

Owner-Operated Business

Direct involvement from the business owner ensures accountability, attention to detail and a personal approach.

Flexible Capabilities

From residential earthworks to larger civil projects, we have the experience and access to equipment to get the job done.

Commitment to Quality

We take pride in delivering reliable workmanship, maintaining high standards and building lasting relationships with our clients.

Our Commitment

At Thomas Contracting & Civil, we believe our reputation is built on the quality of our work, our reliability and our commitment to our clients.

We aim to deliver practical, cost-effective solutions while maintaining a strong focus on safety, efficiency and customer satisfaction.

Based in Victoria and available to travel for projects throughout Australia.
